

LIFETIME STATEMENT for Personal Protection Equipment

All PPE cat III products need annual inspection

Products made of mainly textiles/webbing, such as harnesses, lanyards, slings etc.:

Maximum lifetime: 10 years from the date of production

Expected lifetime: 5-6 years, at normal use

Fall arrest blocks (mini blocks) with webbing:

Maximum lifetime: 10 years

Expected lifetime: 5-6 years

Fall arrest blocks with galvanized or stainless steel cable and other metal hardware:

NO MAXIMUM LIFETIME

Visual annual inspection needed

If damaged send to authorized service center

The maximum lifetime is only valid without environmental factors 1) and taken special circumstances 2) into consideration.

- 1) Environmental factors: contact with chemicals, improper storage, exposure to strong sources of heat > 50°C, ultraviolet rays, abrasion, etc.
- 2) Special circumstances: deterioration of the product, arresting falls, mechanical deformation, early wear, intensive use and lack of right usage.

In all cases, POWERTEX Fall Protection products must be verified annually by a competent person.
